

This week at St Margaret's Nursery

Week beginning: 11th June 2018

Sports Day

What a wonderful time we had at sports day! I hope you enjoyed it as much as we did.

We took part in a wide variety of races: running, egg and spoon, balancing, hoop, obstacle and our relay.

The children
were fantastic in
their races and
participated
really well as a
team!

Well done
Nursery!

Anything else?

We had our second visit to see Mrs Snape in the science department this week. We found out who had skeletons and who did not, like the snails and jellyfish. We checked to hear each others heart with the stethoscope. We investigated real lungs and watch what happened when Mrs Snape blew air into them. At the end Mrs Snape made a cool rainbow using warm water and skittles.

What will we be learning about next week?

**Revising our letter sounds, time and
Grow Well Choices - Healthy Balance.**
