

This week at St Margaret's Nursery

Week beginning: 16th April 2018

1 Literacy - 'r'

Writing and drawing in our letter book for the letter 'r'.

We can find the lower case and upper case 'r' in our environment.

Paired reading with 2 Junior.

Playing games on the computer to learn about the letter 'r'.

Some of the children went on a 'r' shopping trip with a shopping list they helped to put together consisting of lots of 'r' items.

2 Numeracy

We talked about rainbows and that all rainbows have the same colours in the same order. We read about rain and why we have rainbows. We were able to make our own rainbow patterns, count the colours and take a print of the pattern we had made.

We used a semi-circle to paint rainbows.

We measured 1 cup of water and 4 tbsp of baking soda, added raisins and timed them for 15 minutes. We then transferred them into 1 cup of vinegar and watched them dance.

3

Health and wellbeing

We have been exploring, looking after and watering the daffodils.

We have been drawing spring pictures.

We made delicious rhubarb crumble.

Wee Green Spaces

4

This week at Wee Green Spaces we were attempting to roll, run and slide down a grassy hill.

Anything else?

Using ramps for rolling.

We read the book 'the drop goes plop' which told us how rain is formed. We then carried out an experiment with food colouring and shaving foam to demonstrate the process.

New Stay and Play times are available for the week beginning 30th April and new story time sessions for the Summer term. Please see the sign up sheet in the nursery corridor.

We would like to thank everyone who bought books at our Scholastic book fair in February. We were able to buy new books for our lending library from the books purchased. Our lending library is open every Wednesday morning. We hope you enjoy some of the new books now available.

What will we be learning about next week?

The letter 'u', measuring and planting.
