

This week at St Margaret's Nursery

Week beginning: 4th June 2018

Nursery Outing to Crathes and Drum

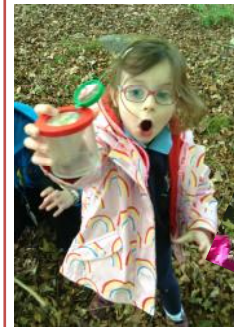

1

When we arrived at Crathes we split into two groups each led by a National Trust Ranger. We went into the woods for a mini beasts hunt. The rangers had hidden pictures of butterflies for us to find. We then went exploring under logs and stones for real insects to collect in our containers.

We found insects that jumped, harvestman spiders, beetles, a woodlouse, millipedes and slugs. Trying to catch them to put into our containers was fun!

We found bees pollinating the flowers.

At Drum, we enjoyed our lunch in the tepee and had fun in the play park.

Anything else?

Story time with Oliver's Grandma.

Experiments with Mrs Snape in the science department. We learned about teeth: what happens to them in cola, how many a cat has and we watched elephant's toothpaste explode!

We went on a 'j' journey.

We made healthy teeth with playdough.

We played the 'Teeth Attack or Protect' game.

What will we be learning about next week?
The letter 'x', number games and
Grow Well Choices - Feeling Peckish.
